Progress During the year 2019-20

Women Empowerment PROGRAM

Due to backwardness of Bihar and Jharkhand States, women are always given secondary status here. The primary unit-family itself does not respect its female members. They are treated as a curse and a woman reproducing a girl child is looked down upon. GNYT with the financial support of NABARD, tried to break this hegemony by the socio-economic empowerment of the poor women through SHG. SHG formation and nurturing has been a focused program of GNYT and with the support of NABARD,

we have successfully formed 100 women's SHGs in Banka and Dumka districts in Bihar and Jharkhand.

Apart from the group savings and internal lending, regular capacity building training programs by GNYT helped in improving the capacities of the formed women groups in management of the group affairs, process of bank linkage and EDP, problem solutions, literacy promotion and awareness of different govt. schemes and programs. It is a fact that sustainability of micro finance in SHGs based upon proper book keeping and efficient fund management and therefore identification of potential book writers in the groups and training them for maintaining the accounts as per the standard norms are important for SHG progress.

In 2019-20, GNYT imparted capacity building training of the account writers of SHGs. The training was conducted from in Katoria block in Banka district, Mohanpur block in Deoghar district in Jharkhand and Chandan and Katoriya blocks in Banka district in Bihar. A total of 90 account writers were benefitted by the training. The following topics were covered in details during the training programs:

- Concept of self-help groups.
- Essentialities and common errors of book keeping and financial management.
- Benefits of organizing SHGs meetings on weekly basis, maintenance of own saving passbooks by the group members, internal group lending process, maintaining a clear and transparent cash management and linking all the groups with banks to avail bank loans for self-employment.

The training showed a good results and the SHG members have now better know how on account writings and on the functioning and different rules and regulations of the SHGs that helped them to move towards socio-economic reliance.

YOUTH DEVELOPMENT

From the beginning, the Gram Nehru Yuva Trust has been working for the all-round development of the youth of the rural areas. Under youth empowerment, 40 youths participant of katoria block of Banka district of Bihar, were given "youth leadership and community development" training programme in collaboration with the Nehru Yuva Kendra Sangathan, so that youth from rural areas can join the mainstream of the nation. Under the program, training to the members

of the village health sanitation-nutrition committees and Sahiyas were also provided which helped them to improve their knowledge on NRHM.

FPO PROMOTION & DEVELOPMENT

There is a need for aggregation of farmers in order to benefit from economics of scale. Producers organization help in reducing the transaction costs and provide a forum for members to share information, coordinate activities and make collective decision. FPOs no doubt, have the potential to bring about vertical integration in the traditional fragmented supply chains with need-based long term business plans. But they also create opportunities for producers to get involved in value all supply chain activities such as input supply, credit, processing, marketing and distribution.

In collaboration with NABARD, a Farmers Producer Organization (FPO) has been formed in 05 Gram Panchayat of Jarmundi Block under Dumka District of Jharkhand State. The target is to double the income of 5000 small & marginal farmers of Jhakhiya, Machala,

Babhnadiha, Sahara, Kataria villages. Handholding support and capacity building, marketing support is provided by our organization.

SUSTAINABLE AGRICULTURE FARMING

Information about the benefits of farming and animal husbandry, fisheries was given in the workshop in an advanced and scientific manner. More than 100 farmers including agricultural officials and progressive farmers, experts attended the workshop.
